Protect your child, it's the law!

Effective January 1, 2005, changes to the California CPS Law (VC 27360 and 27360.5) will cite the parent/guardian for each child who is not properly restrained in the rear seat unless the child is 6 years old or older, or weighs 60 pounds or more.

Exceptions:

- Your vehicle has no rear seats.
- Rear seats are side-facing jump seats.
- The child restraint system cannot be properly installed in the rear seat.
- Children under age 12 occupy all rear seats.
- Medical reason (written by the pediatrician) requires that child not be restrained in the back seat.

A child may **NOT** ride in the front seat with an active passenger airbag if:

- Under one year of age.
- Weighs less than 20 pounds.
- Riding in a rear-facing CPRS.

Children who weigh at least 60 pounds or who are at least 6 years old, but less than 16 years old, must be properly secured in an appropriate restraint system. (Vehicle Code 27315, requires every one 16 years and older who is a driver or a passenger be properly restrained by safety belts).

You can be fined for violating the California Child Passenger Safety Law.

1st Offense: \$100 fine. Court may waive or reduce fine, but must refer you to a violator program if fine is reduced.

2nd Offense: \$250 fine. Same conditions as first offense and your auto insurance rates may increase.

All licensed Childcare Centers must post copies of this sign (or a sign with the exact same information) at the entrance to the facility. This is a condition of licensure under Health and Safety Code Section 1596.95(g).
